

Web App Design

By Eloisa P. Senga

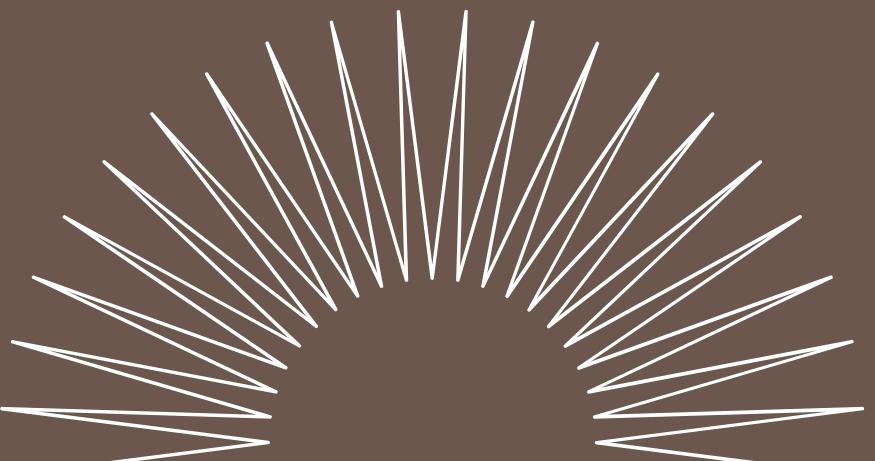

**Bachelor of Science in Information Technology with
specialization in Multimedia Arts and Animation**

I am Eloisa P. Senga, and my portfolio is a representation of all I've learned and accomplished as an artist and developer. In this section are my web designs which I made for an activity and project in school. These works serve as my building block in being creative and practice my skills in designing and programming.

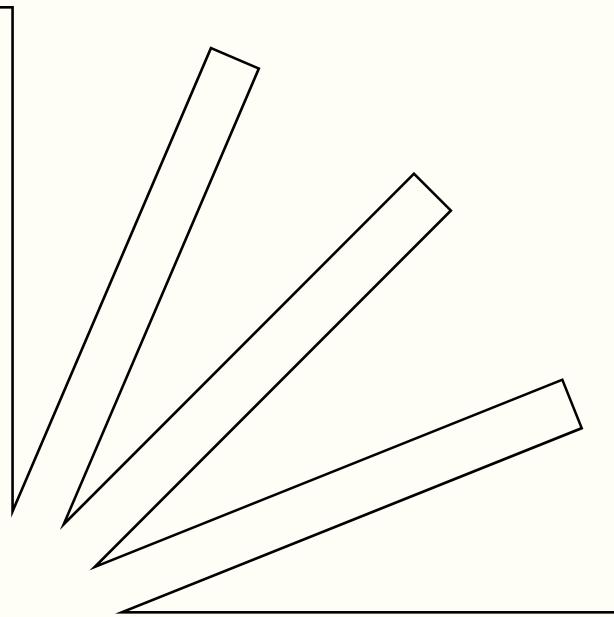

I am still learning and will continue to show new sides of me. Have fun in checking my web designs, I think you'll like what you see!
